

I am a supporter and listener of a station on the FM dial, 95.9, K-Love. It is the only station in our rural area that plays Christian music continuously. THERE IS NO OTHER CHOICE. The supporters of K-Love have been informed of a possible expansion of LPFM stations which could bump out some of the National stations. I would hope that this could not happen. Like I stated, there really isn't much radio coverage here in North Central West Virginia and K-Love provides a clean, refreshing respite from some of the music that can be played on the air. I like many kinds of music but when I need some inspiration, I like to have a choice.

Thank you.
